About Me

I'm a dog mom, avid knitter,
casual gamer, history lover,
mythology enthusiast, etc . . .

I'm also an illustrator and
graphic designer who grew up
experimenting with charcoal,
pastel, painting, scratchboard,
photography and photo editing,
linocut print making, embroidery,
sculpture, and whatever else I
could get my hands on.

You can find my portfolio at
mimbotomy.com and see more
examples of my work on my
Instagram @mimbotomy.

Experience

Contracted Graphic Designer

Weston & Associates, Mechanical Engineers, Sacramento, CA
Returning to the company where I had my Mechanical
Engineering internship, my current work at Weston & Associates
is primarily focused on their rebrand, specifically designing
a new logo, creating internal branding guidelines and
templates, and building a new website according to their
provided design specifications. **July 2022 - Present**

Math Tutor

Mathnasium, Escondido, CA

I tutor students according to Mathnasium's curriculum, ranging
from ages five to eighteen. Currently, I am in charge of our
team at Felicita Elementary, as well as working at our center
with a variety of students. **January 2023 - Present**

Member & Marketing Content Creator

Cal Poly Amusement Park Engineers & Designers (CAPED)

As part of CAPED, I attended weekly lectures, industry events,
and tours relating to the theme park industry. I also worked
on club design projects and competitions, such as building
an animatronic dragon, designing the physical model of a
small scale model dark ride, and developing concept art for
a mythology inspired theme park experience. I was also a
Content Creator for the CAPED Marketing Team from June,
2020, until I graduated. **September 2016 - June 2022**

Media Lead

OdinXR, San Luis Obispo, CA

At OdinXR, a Cal Poly HotHouse sponsored start up, I designed
logos and graphics, built the website, and created all social
media content. At HotHouse, I worked specifically on customer
development and weekly pitch decks. **January - August 2021**

Administrative Engineering Intern

Weston & Associates Mechanical Engineers, Sacramento, CA

As a Mechanical Engineering intern, my duties included
formatting specs, area takeoffs, editing schedules in AutoCAD,
creating spreadsheets, and other administrative duties.

April 2016 - October 2017
